

This certifies that the company

In der Steele 15, 40599 Düsseldorf

meets the requirements for national and international training

Mobile aerial work platform operators

in accordance with the applicable principle of
German statutory accident insurance - DGUV

DGUV principle (Grundsatz) 308-008

**"Training and commissioning of operators of aerial work platforms" as well
as the trade association information and principles for safety and health in
the workplace**

DGUV Information 208-019 and DGUV Rule (Regel) 100-500

and ISO 18878 for international operator training

to do.

The company is entitled to issue to the successfully tested operators a

"Certificate of competency - operating work platforms"

as proof of their competence.

This proof is also valid **internationally**.

This certificate requires that the company bases the use of its certified trainers on the
specified standards. This is monitored by Schipper Certification.

Certificate no.: 1601-2023

Valid till: 11.09.2026

Erkrath, 12.09.2023

Günter Schipper
managing director
